My name is Salim Ali Al-bass and I am from Sultanate of Oman, which is located in the South West of the Arabian peninsular.

I am studying Remote Sensing and Geographical Information Systems at Bath Spa University. This programme is very important for me to improve my knowledge and to enable me to learn the latest skills in this field. About my classes, I believe that I am supervised by highly qualified academic staff. Also, I find myself among a corporate and active students and we work together as one team.

After my graduation, I wish to go back home and apply what I have studied in my country with the aim of developing my home. After that I am planning to come back to the UK to study postgraduate in the same programme.
