

Research Associate

Undertake basic research under the instruction of Principal Investigator
Will provide basic support to other staff involved in the research
May contribute to the writing of research findings
Liaise with colleagues internally as appropriate
No line management responsibilities and no teaching
Typically working towards a degree and/or with some experience of research in the relevant subject area

Research Assistant

Undertake research under the instruction of the Principal Investigator
Will provide support to other staff and students involved in the research
Will contribute to production of research reports and/or publications
Will plan and prioritise own work
Liaise with colleagues internally and develop external contacts and networks
May attend and contribute to meetings
Will contribute to teaching activities but not teach
No line management responsibilities
Will normally hold a degree, or have equivalent experience, and have proven research experience in the relevant subject area

Post Doctoral Research Assistant

Undertake independent research under the guidance of the Principal Investigator
Will produce research reports and/or publications for dissemination to the wider academic community
Liaise and collaborate with colleagues internally and actively develop external contacts and networks
Role model within team
Involvement with students – guide and support
Contribute and may lead meetings
Involvement with Planning and developing research methods
Contribute to teaching activities within subject area but no assessment
Will hold a PhD, or have equivalent experience, in the relevant subject area and extensive research experience.

Research Fellow

May be Principal Investigator for Research project
Undertake independent and/or collaborative research using or developing, appropriate methods or techniques
Produce high-quality research reports and/or publications for dissemination to the wider academic community
Depending if PI or not may lead internal/external networks
If PI may have line management responsibilities depending on size of team
Will be nationally recognised researcher with extensive research experience and relevant outputs
Will seek out new opportunities
Similar teaching responsibilities as PTL, no course development and not a personal tutor
Will hold a PhD, or have equivalent experience, in the relevant subject area

Senior Research Fellow

Will be Principal Investigator for Research project
Undertake independent and/or collaborative research using or developing, appropriate methods or techniques
Produce high-quality research reports and/or publications for dissemination to the wider academic community
Will lead internal/external networks
May have line management responsibilities depending on size of team
Will be nationally recognised researcher with extensive research experience and relevant outputs, may be internationally recognised
Will seek out new opportunities and lead bids for major research and/or consultancy
Similar teaching responsibilities as PTL, so no course development and not a personal tutor
Will hold a PhD, or have equivalent experience, in the relevant subject area
