Programme Overview

A warm welcome to Education Primary and Early Years at Bath Spa University.

Education Primary and Early Years is a single honours award in education studies. It is ideal if you have the ambition and prerequisites (see entry requirements) to become a primary school teacher.

Education Primary and Early Years develops your knowledge, critical understanding and skills needed to explore education in a variety of ways and become change makers of the future. It enables you to appreciate what education is for, how it is constructed and how it succeeds or fails in its aims. It is not 'teacher training' or a 'theory' course but helps you understand the history of education and schooling and develop a vision of what education might become.

The programme provides you with an opportunity to experience classrooms in each year of your degree as well as a variety of other placement opportunities in educational contexts.

At the end of the programme you have the option to continue onto our PGCE course or apply for alternative routes into teaching.

We will offer you personalized academic support. Each year you will have an academic tutor who will help you identify your academic strengths and how to build on these. In addition we work closely with our Careers and Employability team who offer support and advice about future careers opportunities and the application processes for initial teacher training.

You can also take this programme as a 'sandwich' degree, studied over 4 years. This includes a Professional Placement Year module, taken in the education sector. The placement year is usually taken after you have completed year two of your degree. During this time you will be able to apply knowledge gained during your studies in a work environment.

Programme Aims

1. To examine and question the aims, values and outcomes of education and schooling in local and global contexts.
2. To explore the social, cultural, historical, political and economic contexts of education and schooling.
3. To interrogate educational processes, societal and organisational structures and their impact on pupils, families and communities.
4. To understand the role, range and scope of educational enquiry and its impact on schooling.
5. To develop knowledge and skills that enable progression to a range of employment or postgraduate study in related educational contexts including initial teacher education and the PGCE at Bath Spa University.
6. To develop your professional identity and relevant skills and competencies to practice in school classrooms or nurseries.
7. To challenge your understanding of your role as an educator in promoting social and educational change through an understanding of global issues and debates.

Graduate Attributes

	Bath Spa Graduates...	In Education Primary and Early Years, we enable this...
1	Will be employable: equipped with the skills necessary to flourish in the global workplace, able to work in and lead teams	By embedding employability within the Education Primary and Early years programme, we develop your skills to flourish in the global and professional workplace. You are required to undertake at least one placement in a professional education setting and you are assessed against a range of employment focused criteria. Many optional modules also give you the opportunity to undertake further placements, both internationally and in the UK, and to gain additional professional accreditations.
2	Will be able to understand and manage complexity, diversity and change	We believe that education is about change and we will challenge you to change and develop your ideas, attitudes, skills and knowledge as part of this course.
3	Will be creative: able to innovate and to solve problems by working across disciplines as professional or artistic practitioners	We believe that education professions are creative ones – the Institute for Education strapline is, 'Be creative, educate'. You will have a range of options to explore your own creativity and the creativity of learners. You will also take modules that encourage problem solving and give you opportunities to work across academic and professional disciplines.
4	Will be digitally literate: able to work at the interface of creativity and technology	We aim to build your existing skills as a 'digital learner' so that you can benefit from technology to its fullest extent. You become a confident user of digital technologies in your own learning by working extensively with Minerva (our virtual learning environment) on all of your modules. You will have the opportunity to choose modules that explore digital technologies and to develop creative work using technology as part of your assessments.
5	Will be internationally networked: either by studying abroad for part of the their programme, or studying alongside students from overseas	<p>Education Primary and Early Years equips you to understand and engage with education issues here in the UK and internationally. From year one, our curriculum presents an international perspective on education issues and you can take optional modules that explore issues in international education in detail.</p> <p>You will have the opportunity to participate in international placements and study visits associated with modules or to organise your own education focused international placement. There are also a number of opportunities to study abroad as part of the course, including on an Erasmus placement or a University exchange.</p>

6	Will be creative thinkers, doers and makers	This course enables your knowledge and understanding of education, but it also gives you opportunities, through placements, study visits and creative assessments, to develop your practice and your professionalism.
7	Will be critical thinkers: able to express their ideas in written and oral form, and possessing information literacy	The development of critical thinking skills are embedded in our curriculum from the first weeks of your year one core module, when you will be introduced to philosophical debates around the purposes of education. Your modules will encourage you consider issues from a range of perspectives and will develop your skills to express your ideas clearly in oral and written form. You will also develop skills to understand, critically assess and conduct educational research.
8	Will be ethically aware: prepared for citizenship in a local, national and global context	We believe that education is about change and we provide you with opportunities to develop your personal values and beliefs about education. You will rigorously examine and defend these values against a framework of ethical behaviours and will have the opportunity to consider the ethics of educational research and of working as a professional in education settings.
