Programme Overview

BA Music is a practice-led general music degree that enables you to follow either a broad-based approach to music or a specific focus. The programme emphasises creativity in performance and composition supported by academic strands together with modules developing industry skills and employability. You can pursue your specialist areas in western art music, particularly early and contemporary, jazz, musical theatre and world music; music education and music psychology are also a focus with past students increasingly making career choices in these areas. The programme provides pathways in vocal performance studies, with an emphasis on opera and musical theatre, which blends conservatoire-style training with academic study; community music (which links to education and psychology) and in jazz performance. Tutors on the BA Music programme encompass a wide range of musical styles and areas of research and practice. Collectively, they provide a highly experienced and multi-disciplinary approach to the study and practice of music. Specialist instrumental tutors enable your continued development of musicianship and performance skills through one-to-one instrumental/vocal teaching. Performance experience is a constant element of the programme through teaching and assessment activities, and through a range of ensemble groups for instruments and voices.

Employability lies at the heart of BA Music. For example, work placements in a wide variety of work environments provide students with opportunities to explore the application of music beyond performance. The programme has particular strengths in composition, community music, music psychology and music education, working with regional and national groups. The trans-cultural nature of music engages you with the wider international music community. Opportunities for international exchange and performance opportunities underpin the programme's commitment to developing global citizens.

The breadth of BA Music allows you to create a bespoke music programme that fits with your particular strengths and interests.

Programme Aims

1. Provide a rich and varied environment to explore and develop practical and creative skills and abilities in a range of musical genres
2. Develop and support critical, analytical and interpersonal skills in a range of musical settings and contexts
3. Emphasise and encourage responsive and investigative approaches to independent projects in academic, practical and compositional areas supported by staff specialist research strengths
4. Foster your abilities to engage constructively and creatively in collaborative situations through ensembles, groups and productions
5. Engender digital literacy through research skills and music technologies
6. Offer a choice of pathways and strands to fit your strengths, interests and professional goals
7. Provide support for a wide range of future music employment scenarios in preparation for flexible, portfolio careers and lifelong learning

In BA (Hons) Music (Community Music) at Level 5 and Level 6 you must take at least one R* module in each semester.

Assessment methods

A range of summative assessment tasks will be used to test the Intended Learning Outcomes in each module. These are indicated in the attached assessment map which shows which tasks are used in which modules.

Students will be supported in their development towards summative assessment by appropriate formative exercises.

Please note: if you choose an optional module from outside this programme, you may be required to undertake a summative assessment task that does not appear in the assessment grid here in order to pass that module.

Work experience and placement opportunities

A number of BA Music modules offer placements and employment skills opportunities. Level 5 Professional Skills has work placements, as does Level 6 Community Music; work placement/observation is also encouraged in the Level 6 Music Psychology module and in either of the level 6 Research Project modules. Student may also choose to take the open placements module.

The **BSU Professional Placement Year** provides you with the opportunity to identify, apply for, and secure professional experience, normally comprising 1-3 placements over a minimum of 9 months, which attracts 120 Level 5 credits. You may choose to take an open work-placement module if you wish to work in a field other than acting. These placements are not related directly to industry specific employment, but do enhance your transferable skills in the wider workplace environment.

Graduate Attributes

	Bath Spa Graduates...	In BA Music this means...
1	Will be employable: equipped with the skills necessary to flourish in the global workplace, able to work in and lead teams	Music connects powerfully at many levels with social and cultural life in an increasingly global environment. Transferable skills from all aspects of musical engagement: developing core business skills for arts professionals, such as project planning and delivery, funding, marketing, promotion, educational environments. Central to the course is the provision of support for a wide range of future music employment scenarios in preparation for flexible portfolio careers and lifelong learning. Enhancing creative practice through increased individuality and autonomy as musicians, allied to core practical skills when working with other creative practitioners and arts organisations.
2	Will be able to understand and manage complexity, diversity and change	Understanding current professional and artistic contexts and how to relate these to practice. To be able to work to brief and collaborate with others in order to work within professional and artistic constraints.

3	Will be creative: able to innovate and to solve problems by working across disciplines as professional or artistic practitioners	Producing individual creative outputs that demonstrate independent thinking. Performing in many different environments, styles and genres. Writing music for different ensembles and settings: traditional classical, jazz, music with media, film and dance.
4	Will be digitally literate: able to work at the interface of creativity and technology	Producing creative and academic work that engages technology in appropriate ways. To use digital tools to support practice through documentation and dissemination of outputs.
5	Will be internationally networked: either by studying abroad for part of the their programme, or studying alongside students from overseas	Working with international staff and students in Music, and elsewhere in the University, as well as interacting with international visitors and where appropriate exchange possibilities and having an online presence.
6	Will be creative thinkers, doers and makers	The ability to convey personal expression and imagination in practical music-making, whether through performance or composition, developing an individual musical personality or 'voice' through advanced technical skills
7	Will be critical thinkers: able to express their ideas in written and oral form, and possessing information literacy	Understanding issues in current musical thought and its related contexts, and to articulate this both through creative practice, research and academic writing.
8	Will be ethically aware: prepared for citizenship in a local, national and global context	Understanding the role of artists in society and their obligations when working with others. Our programme offers many opportunities to meet, work with and learn from musicians from other cultures.
