

## Interview task for PGCE Secondary Geography

During your interview, you will be asked to explain how you would teach a 'mini lesson' at KS3 or 4. The audience will include interviewers and other candidates. To be clear, this task is more about how you would approach teaching a lesson, rather than actually teaching it. You will be expected to justify why you chose the topic you have presented on, as well as answer questions about how you would deliver it. You are invited to be as innovative as you like and will have access to a laptop and presentation tools like MS PowerPoint.

Here are some further notes for guidance:

1. You will need to speak clearly and audibly.
2. You will have a maximum of 8 minutes for the presentation, and 2 minutes for questioning.
3. You should bring notes of your presentation to give to the interviewer.
4. It is a good idea to practice your mini lesson and avoid reading it directly from your notes.

Best of luck!

*Please complete the Geography Subject Knowledge Audit and bring it with you on the day*
